Subject: RE: AQS Null Code

That is interesting. I got a message from someone else and they were also using "AS" so I suggest that's a good null code.

Subject: AQS Null Code

Mike,

Does OAQPS have a preferred null code for the ozone data invalidation?

The most descriptive one that I see is "AS"—Poor Quality Assurance Results.

It makes sense that we all try to use the same code for consistency's sake.
